MONEY, STOCKS AND GRAIN

Lower Foreign News and United Selling Depressed the Share List.

Wall-Street Bears Had Control of the Market All Day, with One Brief Exception-Indianapolis Grain More Active.

THE BOND MARKET.

Railway Issues were Irregular With Transactions Lively At New York yesterday money on call was easier, ranging from 3 to 15 per cent., the last loan being made at 3, closing of-

fered at 3 per cent. Prime mercantile paper, 6@8 per cent. Sterling exchange was firm, with actual business in bankers' bills at \$4.83@4.834 for sixty days and \$4.84% @4.85% for demand.

The silver market was quiet, but strong. Certificates sold at 75@75 sc, closing at 75@76c.

Lower cables from London and some selling by arbitrage houses led to a weak opening in the New York stock market yesterday. In the first trading prices receded 4 to 14 per cent, right through the list. A sharp advance of 1 cent in sterling exchange at the opening of business also operated against the stock market. Rumore affecting the credit of C. P. Huntington were again put affoat, and it was reported from London that the Central Pacific Company would not pay its August dividend. Mr. Huntington denied in toto the stories alleging his inability to meet his contracts, and asserted that the Central Pacific would pay its August dividend. Subsequently, when it was found that brokers had no difficulty in renewing their loans, and that foreign houses were liberal lenders of money at comparatively easy rates, a more bullish feeling set in and under the leadership of General Electric an advance of 4 to 13 per cent. was recorded. The firmness was short-lived, however, and soon after midday the bear forces renewed their attacks. Northwest, Burlington & Quincy, Rock Island, American Sugar, Big Four, and Western Union were sold by the professional element and rumors were circulated that large failures were imminent in London. These reports could not be traced to any authentic source. The market closed about steady.

Railway bonds were irregular. Erie firsts, consols, rose 2 to 130, Lake Shore firsts, registered, 2% to 114%; Lehigh & Wilkesbarre consols. assented, 3 to 98; Richmond Terminal trust receipts, sixes, fell 2 to 55@ 56; Toledo & Ohio Central firsts, 2 to 103; Western Union debenture fives, 2 to 101; Erie second consols, 2 to 88. Government bonds were strong. State bonds were dull. Closing quotations were:

LOCAL GRAIN AND PRODUCE.

Trade Becomes More Active and Prices in Many Lines Easier,

On the wholesale streets, yesterday, there was considerable activity, and on commission row provisions were weaker. The same is true of poultry, eggs and nearly all vegetables, home-grown taking the place of shipped-in vegetables. In the fruit line there was but little good stock on the market. Irish potatoes, and good stock, were in good supply. Bananas are scarce and firm at the recent advance. Sugars are firmer, and the soft grades 'so higher. In dry goods easier prices rule, and trade is rather quiet, except in the way of replenishing broken stocks.

The local grain market showed more serivity than last week, and, were the allrail rates placed on a fair basis with part water and part rail routes, more would be done. Track bids ruled yesterday as fol-Wheat-No. 2 red, 59c; No. 3 red, 54@56c;

CEREALS WEAK AND LOWER

Wheat Offered at a Cent Beneath Monday's Closing Figures.

Those Estimating the Decrease in the Visible Supply of Wheat Missed Their Guess by About Three Million Bushels.

TRADING AT CHICAGO.

Provisions Were Dull, but Firm at the Close, Some Gains Being Noted. CHICAGO, July 5. - The grain markets on the Board of Trade opened weak this morning. Pork was dull and steady, but lard and ribs were somewheat higher. The animation which is usually found to succeed a holiday was altogether wanting, with orders from outside points scarce. The bullish feeling which was noticed on the curb on Monday had given place to bearishness, and instead of from 70% c and 71c bid for September wheat, as on Monday, there were sellers at the start, to-day, at 7040, with an immediate decline to 70c and a further decline to 634c in the next few minutes. There was a narrowing of the spread between July and September to 5c per bushel in the first half hour. 'The weakness to-day had several contributing causes. Foreign markets were not encouraging. Liverpool was quoted steady and inactive, and English stocks were reckoned to have increased two million bushels last week. The Board of Trade cablegram made the extraordinary statement that in England heavy rains succeeded by a protracted drought had materially improved the crop prospects. The weather map here showed rain fairly well distributed in the Dakotas, where wheat was reported to have been previously suffering for the want of it. There was an increase of about 147,000 bushels in the stock of contract wheat in Chicago. These were the chief features of the early market news. The price kept within a narrow range atter the decline until after the result of the visible supply statement was pubished, immediately following which there was a rush of seliers and a rapid decline to 68% c for September. The decrease, instead of amounting to between 3,000,000 and 4,-000,000 bushels as had been confidently expected was only 761,000 bushels. The close was weak at the bottom figures of the day. July started out independently. It opened %c lower than the closing of Saturday at 64c, and on a sharp demand for the cash article sold up 1c, but the strength did not hold and the close showed the gain all wiped out.

Corn was weak, partly in sympathy with wheat and in part due to the fine corn weather. The receipts were liberal also. and people in outside markets were not sending any orders to speak of. There was no activity in the trade at any time. The spread between July and September narrowed to 2c per bushel. July was not traded in to any great extent, but was irm, even when September was showing weakness. July opened at 3940 and kept improving until it had reached 39% c. the price at which it closed Saturday, and closed at 39%c. September opened at 42c, touched 42 so, then sank gradually to 41 sc.

and closed at 4112c. The cats market was quiet and lower. partly in sympathy with wheat and corn. and due some to heavier offerings. The shorts bought freely Saturday, expecting a big advance over the holidays, but the crop reports were even better than they have been lately, and the visible supply was also a disappointment, showing a good increase. September opened 4c lower at 26 4c, touched 26 sc. sold off to 26c and closed at 26 sc.

The provision market was very dull, but the weakness which accompanied the want of business at the close of the previous week was succeeded by firmness. Hog receipts were liberal. The price quoted from the yards was about 10c over Saturday's rates. The carrying charge from July to September was narrower in this, as it was for the carrying of grain. Wright was credited with some buying of ribs, and lard was also well supported by the bulls. September pork showed no change at the opening compared with Saturday's last figures, but worked off 24c during the session, closing at inside figures. September lard opened .050 higher, and advanced .125c more, but reacted .10c before the close. July ribs started .60c up, sold off ,25c, and rallied .05c, while September

opened only .10c higher, advanced .10c more, and declined .0746c before the close. Lake freights are extremely low. The schooner J. F. Card was chartered to-day for corn to Port Huron at 1c a bushel. This is the first time in the lake grain trade that Port Huron has dropped to 1c a bushel. Shippers are sending some grain for export via Boston, and that is about all the business vessels are doing. The local demand for grain on the seaboard has dropped to almost nothing. It was lo for wheat and corn to Buffalo. Estimated receipts for tomorrow are: Wheat, 160 cars; corn, 560 cars; oats, 240 cars; hogs, 24,000. The leading futures ranged as follows:

DAILY.

SUNDAY

AND

WEEKLY

The Journal's price for daily is only 15 cents a week, and it has a very wide circulation, reaching a large number of people hitherto unable to afford the luxury of a first-class daily paper. Reports from agents and subscribers indicate a continued increase, and that what used to be regarded as a luxury has become a necessity. The new readers not only remain, but they are constantly increasing.

It is the purpose of the Journal to make itself even more indispensable to its patrons, new and old, and to still further widen its field. To this end it will not only endeavor to maintain the characteristics which have established its reputation as by far the best newspaper in Indiana, but will add such new features and improvements from time to time as are in accord with journalistic progress and that may tend to the advantage of its readers. It will, for example, give increased attention to State and local interests. What Indianians want is a paper in which Indiana affairs are given especial prominence and importance. This want the Journal has always supplied as no other paper published outside or inside the State is able to do; but the rapidly developing industries and business and social enterprises of the community call for additional consideration and space, With this in view its corps of correspondents has been increased until it has a representative in nearly every town in the State. Special traveling correspondents will visit the news centers of the State at frequent intervals, thus insuring the "write up" of every important event or matter of general interest.

Being published in the geographical center of Indiana the Journal is afforded unusual facilities for securing news promptly, and, what is of greater consequence, is able to reach its subscribers without delay. The running of morning trains from Indianapolis is very favorable to the early distribution of papers sent by mail or express, and in most towns within a radius of a hundred miles Journals are delivered as early as in the city where they are printed. In the more remote counties there is but little loss of time in trans-

portation. The Journal is the paper for Indianians and particularly for Indiana Republicans. The change of administration involves the settlement of political problems likely to be of the most direct personal concern to every farmer and business man in the State. All such matters will be set forth in detail, the Journal's Washington correspondent being instructed to give especial attention to everything having

a possible bearing on Indiana interests. But though the Journal is Republican in politics it is non-partisan in the publication of news. Its constantendeavor is to secure facts unbiased by prejudice and to make its columns trustworthy records of each day's happenings. A large editorial force supplements the work of the press associations and the correspondents, and furnishes careful

supervision for each department. The Sunday Journal has a well-established literary character, superior to that of any Western paper. It is not defaced by "plate matter" nor filled with a heterogeneous mass of syndicate literature, but its contributions and miscellany are chosen with a view to their special fitness and adaptability to the tastes of the readers. The reading matter in any given number of the Sunday Journal is equal in quantity and is not inferior in quality to that found in the leading magazines. As an educational adjunct and a source of entertainment the Sunday Journal is indispensable in every well-regulated family.

The Weekly Journal, at \$1 per year, contains more reading matter than car be obtained for the money in any other shape. It is carefully edited and offers the news of the week in condensed shape and a variety of miscellany. agricultural and household literature that render it one of the best investments that any family can make. Try it and see. It has a large circulation in this and other States and agents find it an easy matter to secure large lists of subscribers. Special inducements offered to agents.
